DETAILED ACTION

This Office Action is in response to a communication made on February 2, 2006.

The Power of Attorney has been received June 23, 2006.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14, drawn to provisioning virtual routers based on a routing profile, classified in class 709, subclass 222.
- II. Claims 15-18, drawn to reconfiguring a subset of virtual routers, classified in class 709, subclass 221.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination II has separate utility such as reconfiguring only a portion of virtual routers affected by a change in a routing profile. See MPEP § 806.05(d).

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.
